# COMPANY INTRODUCE

## INTRODUCTION

KSC was launched in the South Korean market in 2000 by providing many heavy equipment and OEM parts. We ventured into the online market in 2007 to serve nearby countries and we have successfully expanded our business from Asia to Africa and Europe.

We supply every equipment in its best condition as if it were to be used by our own company. Through the years, quality products meet our valued customers from Korea and worldwide. KSC's vast growth is an asset for businesses requiring heavy duty machineries.

From undercarriage, engine parts, ground engaging tools, bolts and nuts, filters, bearings, gaskets and seals, pumps, electrical parts, air inlet and exhaust, cooling systems, power train, chassis, and other miscellaneous products, name it and we'll get it for you.

Brand new and second hand parts are certainly in exceptional conditions. We at KSC know the value of our customers' standards.

## RAW MATERIAL

- Steel for cover / housing
- Imported quality paper, such as Ahlstrom paper etc.
- OE quality molecular sieve for air dryer
- High efficiency material for oil-separator air dryer

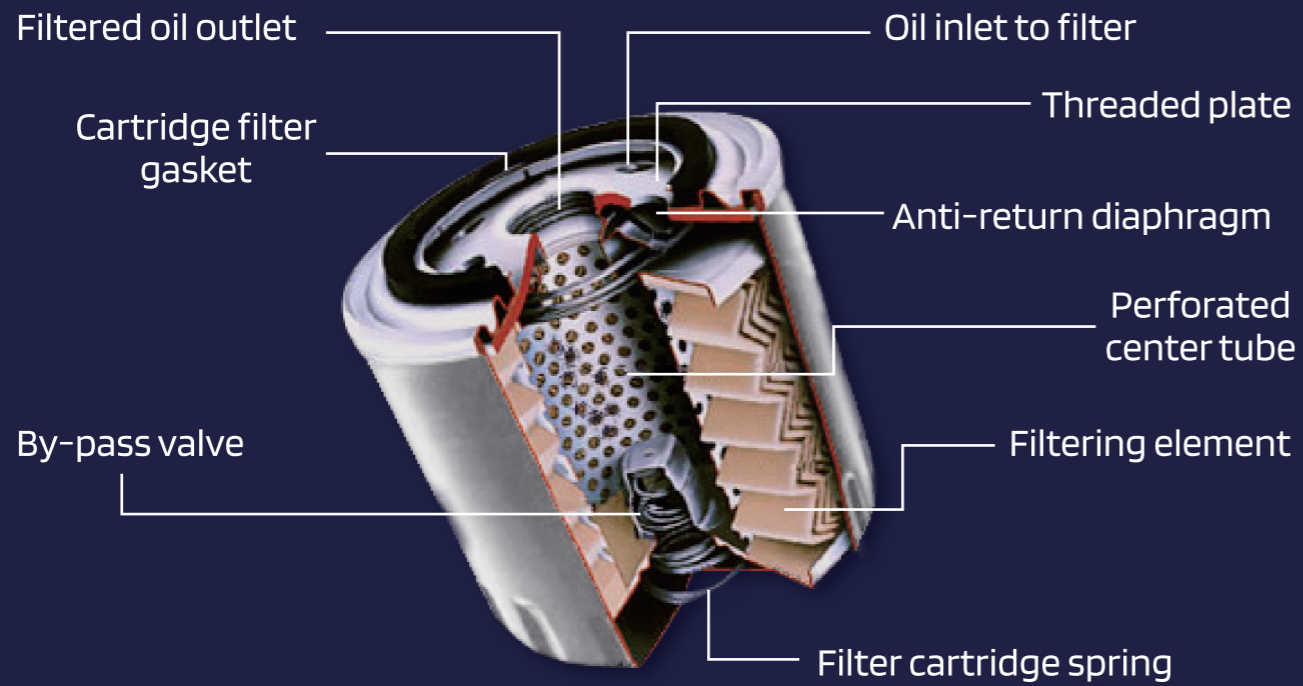

## TEST EQUIPMENT

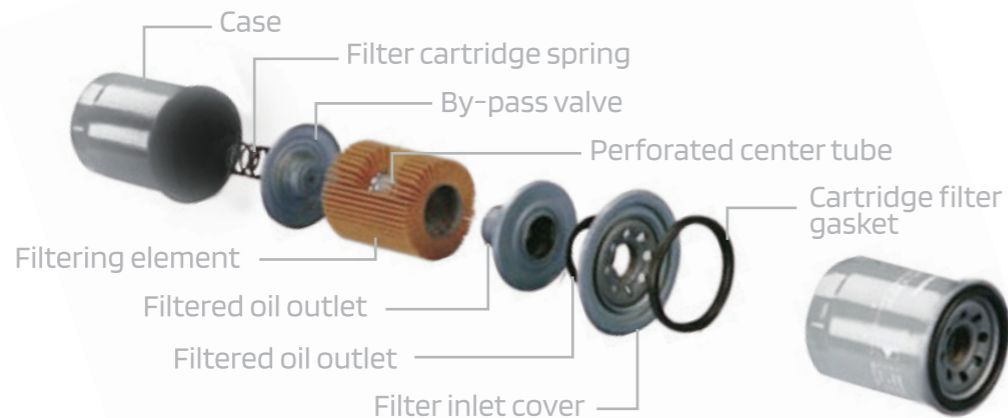

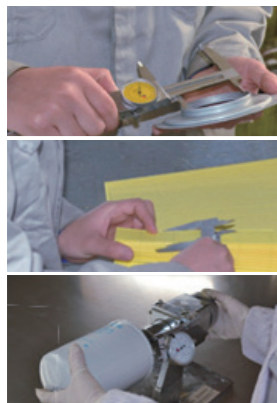

NAMES	MANUFACTURER	VERIFICATION FOR RELIABILITY	REMARK
Air Filter Performance Tester	Myungsung Fine Tech Co., Ltd.	From the air resistance test/ clean efficiency test/ dust collection test of domestic filter companies (filter producers and filter sheet producers), the equipment to test for 1400C or higher is available only from our company and it is designed to satisfy the test conditions of air filter for mid- and large-sized truck and bus.	A/C Comparison test
Impulse Tester	Myungsung Fine Tech Co., Ltd.	By realizing the vein pressure generated under the conditions of stop, starting and running for oil and fuel filter loaded on the engine, it tests and evaluates if it satisfies the required standard as defining the mechanical resistance of the filter. Determine the mechanical resistance of filter assembly on internal pressure.	Oil & Fuel Comparison test
PQ & Collapse Tester	Myungsung Fine Tech Co., Ltd.	Breaking test of filter element on oil & fuel filter Pressure/flux characteristics test on filter by increasing the contaminant as defined. Pressure characteristics test on flux.	Oil & Fuel Comparison test
Heavy-Duty Pressure Drop Tester	Myungsung Fine Tech Co., Ltd.	Breaking test of filter element on hydraulic filter. (for heavy-duty) Pressure/flux characteristics test on filter by increasing the contaminant as defined. Pressure characteristics test on flux.	HYD' Comparison test
